Subject: Microsoft Settlement

We believe the settlement under the Tunney Act is a fair settlement. Please put our names on the approval list and I hope that the Attorney Generals of the States, including ours, California, withdraw their objections. Most people in this nation want this matter behind us and we feel that the only people not in favor of the settlement are trying to bring person politics into it and their back pockets and not interested in what is good for the country.

Sincerely,
James R. and Eileen Davis
Diamond Bar, CA
